

~~SECRET~~

20 November 1967

NOTE FOR: Carl

1. Attached is TSD's memorandum of two years ago which we discussed this morning.

2. Although Chapman's comments indicate some problems, it's over-all tone is, nevertheless, positive -- especially his position that one could not quarrel with the TSD research requirements. My own memorandum appears in retrospect to reflect an even more positive reaction to the TSD memorandum.

3. In view of prior inquiries, I believe it would be best to return the memorandum to TSD for their disposal. It is two years old and badly out of date now. Inclusion of the comments might or might not be helpful.

4. Would you like to:

- a. Return this to at some opportune time?
- b. Have me return it to Sid -- perhaps at a Contract Review Board meeting?
- c. Destroy the whole package?
